## THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

SEPTEMBER 18.

Dispatches from all over the country indicate that the damage to crops by Tuesday night's frost is not so extensive as indicated by first reports.

Six masked men robbed the bank at Douglas, Okla., of \$5,077, and, going to the village livery stable, got the cashier's buggy and escaped in it.

The Hon. Vincent Borah, Representative in Congress from the Eleventh Kentucky district, died yesterday at his home in London after an illness of ten days of pneumonia.

President Roosevelt has granted full and unconditional pardons to George D. and Barbara Coby, convicted at Montgomery, Ala., of holding one Pike Swanson in a condition of peonage.

Capt. Holz and his band of Salvationists are now at Jackson holding services, which are well attended. The brigade will leave tomorrow on horseback for a journey through Salysville, Prestonburg, Pikeville to Norton, Va. Train will then be taken to Bristol, Tenn.

The naval yacht, Sylph, conveying President Roosevelt and his party to New York, encountered a severe storm shortly after leaving Oyster Bay and for a time was in danger. The party were all safely landed at Ellis Island station.

Greater New York, the Delaware capes and the entire Jersey coast were yesterday swept by one of the worst wind and rainstorms known in years. The gale reached a velocity of eighty miles an hour, and was especially disastrous to shipping. At least five lives were lost and property worth many thousands was destroyed.

Indictments were returned yesterday by the Livingston county grand jury against Young E. Allison, editor, George Riley, correspondent, and the Herald Publishing Company. Bench warrants were issued at once. The indictments are the result of certain charges made, against Superintendent H. V. McChesney in the columns of the Herald.

The Democrats of Maryland nominated Edwin Warfield for Governor, Gordon T. Atkinson for Controller, and William Shepard Bryan for Attorney General. The convention was controlled by Senator Gorman, although he was not in attendance. The principal plank in the platform is devoted to the race issue.

A London correspondent who succeeded in reaching the insurgent lines in the vicinity of Adrianople reports a terrible state of desolation. The entire country has been laid waste by Turks, and famine is threatened for the survivors. At Sofia it is anticipated that the Christian population of Adrianople will be exterminated. The Powers have not yet made formal reply to Bulgaria's demand for intervention.

SEPTEMBER 19.

Republicans of Maryland nominated full ticket, headed by Stevenson, A. Williams, of Harford county, for Governor.

The band of insurrectionists which had been causing trouble about Santiago, Cuba, was dispersed and its leaders captured.

An electric car on the Zossen military road in Germany is said to have attained a speed of 100 1/4 miles an hour—the highest on record.

Dr. W. Godfrey Hunter will be a candidate for the Republican nomination for Congress to succeed the late Vincent Borah, of the Eleventh district.

Major Simon P. Gross, who conducted the famous restaurant at the Kentucky building during the Chicago World's Fair, died of softening of the brain at Lexington, Ky.

The monument erected by New Jersey on the battlefield of Antietam to the soldiers of that State was unveiled yesterday. President Roosevelt delivered the principal address.

Three more indictments in connection with the post-office investigation were returned by the Federal grand jury at Washington. One of the men accused is said to be a former chief of one of the bureaus.

Secret service agents have discovered two new counterfeit bills. One is a ten-dollar note on the People's National Bank of Roxbury, Mass., the other a five-dollar note on the Waltham National Bank, of Waltham, Mass.

Heirs of John Sevier, the first Governor

of Tennessee, are preparing to bring suit in the Federal courts to recover 2,000 or more acres of mineral and timber lands of immense value along the Black Warrior river in Alabama.

It is reported that the town of Kastoria, south of Monastir, has been wiped out by Turks and the population of 10,000 persons massacred. The effect of this slaughter, if true, is likely to be most serious, as the feeling in Bulgaria is already intense. It is now thought that the military occupation of Macedonia by Austrian and Russian forces is the only expedient by which a Turbo-Bulgarian may be averted.

The Democratic campaign in the Sixth congressional district was formally opened at Williamstown yesterday. Speeches were made to between 700 and 800 people by Gov. Beckham, Congressman John S. Rhea and D. Linn Gooch and Superintendent H. V. McChesney. The enthusiasm was high and it is claimed Grant county will give an increased Democratic majority in November. Three hundred school children paid their respects to the Governor.

The hearing of testimony in the case of Curtis Jett charged with the murder of Jim Cockrell, was begun yesterday at Cynthia after the defense had exhausted every effort to secure a continuance. Six witnesses were placed on the stand, three of whom testified that they saw Curtis Jett in the window of the courthouse after the volley of shots that killed James Cockrell had been fired from that building. Riley Goldiron testified that he saw Bill Britton with Jett, and other witnesses testified to seeing Britton standing with Jett in front of the courthouse after the killing.

The expected crisis in the British Cabinet has come. Official announcements have been made in London of the resignations of the Right Hon. Joseph Chamberlain, Secretary for the Colonies; the Right Hon. C. T. Ritchie, Chancellor of the Exchequer; and Lord George Hamilton, Secretary for India. In tendering his resignation Mr. Chamberlain writes a letter to Premier Balfour in which he declares he will devote himself to popularizing those principles of imperial union which experience has convinced him are essential to future welfare and prosperity. He says public opinion is not ripe for his tariff proposals and that serious prejudice has been created by the cry of the "dear hat."

SEPTEMBER 20.

Dispatches to London and Paris state that the report of the assassination of King Peter of Serbia is unfounded.

Former Gov. W. O. Bradley says he is still in poor health and will make no speeches in behalf of Morris B. Delnap for Governor until he recovers completely.

Republicans who acknowledge the leadership of former Gov. W. O. Bradley are impatient over the report that Dr. W. Godfrey Hunter is directing the State campaign.

During the Robinson-Wanamaker suit at Beaver, Pa., Mr. Wanamaker declares that he was opposed to the Quay machine, and had made disclosures for the benefit of the State.

The town of Kastoria, according to latest reports, is burning, and the population, estimated at 10,000, has been massacred. The project for a joint occupation of Macedonia by Austria and Russia has been abandoned.

A vigorous protest has been filed with the Government of Santo Domingo by United States Minister Lowell against a project to establish the neutrality of Dominican waters, to make certain ports free, to allow the establishment of coaling stations, and to cede portions of Dominican territory to a European Power.

The testimony for the prosecution in the Curtis Jett case was closed yesterday at Cynthia and the defense will introduce its witnesses today. Jett's attorney, Mr. Blanton, denies vigorously that there is any prospect of the defendant making a confession. It seems certain, however, that overtures with that end in view have been made to the attorneys for the commonwealth.

London papers are discussing the cabinet crisis and indulging in varied speculations as to what will be the outcome of the resignation of Chamberlain, Ritchie and Hamilton. Mr. Chamberlain has made his first public statement in a letter to the Tariff Reform League. There is some talk of the resignation of Premier Balfour, but it is not generally regarded with seriousness. The markets have not been affected by the cabinet crisis.

In the case of George W. Beavers, the postal official indicted for fraud, commissioner Hitchcock overruled the motion to dismiss the proceedings. During the argument Attorney Steners, for the defense, taking up the question of the subpoenas for witnesses, which had been ignored, suggested that the Government was trying to shield some one. Later Mr. Steners made an application to punish for contempt those who had disobeyed the subpoenas.

The Democratic rally at Georgetown was one of the largest held since the opening of the campaign. A great crowd of men were in line of march to the grounds where Gov. Beckham,

congressman Rhea and Superintendent H. V. McChesney spoke. The enthusiasm in the crowd was unlimited. A number of Republicans were seated on the platform, who signified their intention of voting the Democratic ticket. The Governor and Messrs. Rhea and McChesney spoke to a large crowd at Paris at night.

In a speech at Norwalk, O., last night John H. Clarke, Democratic candidate for United States Senator, challenged Senator Marcus A. Hanna to joint debate. Mr. Clarke said he was willing for Senator Hanna to fix the dates and places, subject only to the condition that the debates be held in the close legislative districts. Mr. Clarke endorsed State Chairman Salen's plan for the publication of campaign expenditures and pledged himself to make such publication. Chairman Dick, of the Republican Campaign Committee, has declined to agree to Mr. Salen's proposition on the subject.

SEPTEMBER 21.

Internal revenue collections for the month of August last exceeded the collections of August, 1902, over \$1,000,000.

Five prominent citizens of Barbour county, Ala., were held in bonds of \$500 each to answer charges of white-capping.

Charles Cooper, who killed Chariton Hulet at Lexington, was given a life sentence in the penitentiary by the jury yesterday.

A gasoline explosion at Peoria, Ill., destroyed property worth \$100,000, fatally injured one man and badly hurt several others.

A rumor was circulated in New York that the Standard Oil party had gained control of the United States Steel corporation.

An oil tank exploded at Somerset setting fire to a number of freight cars and caboose. Property was destroyed to the value of \$20,000.

Representative John S. Williams, of Mississippi, declares that the Indiana incident is not dead, and in abolishing the post-office President Roosevelt violated the statutes of the United States.

The controller of the Treasury has rendered an opinion upholding a former decision that the claims of the officers and men of the Fourth Kentucky for pay before muster-in are legal, because they were not filed in the form prescribed by law.

State Senator George E. Green, of New York, has been arrested in connection with the postal scandal on two warrants, one charging him with conspiracy to defraud the Government in bribing George W. Beavers, and the other for offering Beavers a bribe. He absolutely denied both charges.

The Republicans issued their campaign handbook yesterday. It contains no reference to W. S. Taylor or Caleb Powers, but devotes eight pages to the "war" record of Col. Morris B. Delnap, the gubernatorial nominee. A big part of the book is taken up with the biographies of the men on the Republican State ticket.

Gov. Beckham closed the second week of the Democratic State campaign at Falmouth Saturday, speaking to a crowd of 800 people. Effective speeches were made by congressman D. Linn Gooch and Mr. Claude Desha. The gathering was an enthusiastic one and the Democratic leaders are pleased with the outlook in that part of the State.

Diplomatic circles in London do not now regard war between Bulgaria and Turkey as imminent. The Balkan situation has been left in the hands of Russia and Austria to deal with, but so far no plan has been devised by the Powers to restore order. A general rising was planned to occur in Eastern Macedonia yesterday, where the insurgents are fully prepared to begin fighting. A number of battles are reported between Turks and revolutionists.

The commonwealth introduced three more witnesses in the trial of Curtis Jett at Cynthia yesterday. Charles Green, who was brought to Cynthia under arrest from Lexington, testified that he was near James Cockrell when the shooting began and saw three men in the window from whence the shots were fired. He recognized Curtis Jett, but did not know the others. Curtis Jett yesterday addressed a letter to the Courier-Journal denying the reports that he is about to make a confession and declaring that he has been persecuted and has nothing to confess.

A Purgative Pleasure. If you ever took DeWitt's Little Early Risers for biliousness or constipation you know what a purgative pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. They do not gripe, sicken or weaken, but give tone and strength to the tissues and organs involved. W. H. Howell of Houston, Tex., says "No better pill can be used than Little Early Risers for constipation, sick headache, etc." Sold by The Louisville Drug Co. Dr. J. D. Biggs Mgr.

Don't think because some merchant has trusted you for 25c. that your credit is unlimited.

An old bachelor says that marriage is a heroic cure for love.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. Sold by Louisville Drug Co.

Marriage is sometimes a failure and always an assignment.

Feet Swollen to Immense Size. "I had kidney trouble so bad that I could not work," says J. J. Cox, of Valley View, Ky., "my feet were swollen to immense size and I was confined to my bed any physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure which made a well man of me." Sold by Louisville Drug Co.

### Feudists Going West.

The Cincinnati Enquirer says: W. Campbell Kennedy, a railroad man of Huntington, W. Va., was at the St. Nicholas Hotel yesterday with a party of 27 Kentuckians and West Virginians en route to the State of Washington, where they will make their future home. In this party were a number of men who have assisted in making the mountains of Eastern Kentucky and West Virginia celebrated. They were the remnants of the widely known Hatfield crowd which became famous a few years ago in the Hatfield-McCoy feud. There were about one dozen members of the Hatfield crowd in the party, and they said it was their intention to go to Washington and begin life anew.

Mr. Kennedy, who had the party in charge, had a talk with Devil Anse Hatfield in his Virginia home a few days ago, and at the time he celebrated his sixty-fifth birthday. "I had a long talk with the old fellow, and he seemed in the best of spirits. He sat on the steps of the hotel, and told story after story of his fights in the mountains of Kentucky, but expressed himself as being glad that the war is over, and that he can spend the remainder of his days in peace. He told me that there were a large number of indictments hanging against him, which makes it impossible for him to return to Kentucky, and he proposes to remain away until he dies, which, I think, will be a long time. If his looks count for anything at the present time.

"There are a number of men in this party who have gained renown in the Hatfield-McCoy feud, but, as this is a thing of the past, they have determined to go to the great Northwest and make something of themselves."

This crowd of Kentuckians and West Virginians created something of a sensation at the Grand Central Station yesterday afternoon when it became known who they were. They came in at a time when the station was crowded with people going to and from the several trains. The news quickly spread that some of them were members of the celebrated feud faction, and they were the cynosure of all eyes until they left the station.

### CAUTION!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies that are cheap and good for light colds, perhaps, but for severe Coughs, Bronchitis, Croup—and especially for Consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. At Louisville Drug Co., Louisville, Ky., J. D. Biggs, Manager.

Late hours and a spy breath are bound to tell on a man.

### A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by A. M. Hughes.

Every man has his trials—for which the lawyer is thankful.

### A New Jersey Editor's Testimonial.

M. T. Lynch, Editor of the Philadelphia N. J. Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." Sold by Louisville Drug Co.

Cures Hemorrhages of the Lungs. "Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Sold by Louisville Drug Co.

### A Profitable Crop.

For several years Col. H. P. Thompson, of this county, has been experimenting with the cultivation of navy beans, and the results were so satisfactory that last year he put in a large acreage, from which he harvested an average yield of thirty bushels to the acre, and sold at a profitable price.

This year he put in over two hundred and forty acres, which is now being harvested by special constructed reapers. Owing to the early and continued drought of the past summer the yield was cut short, but Col. Thompson thinks that the crop will average twenty bushels. Even the decreased yield will guarantee a handsome profit as the crop is planted and harvested in four and one-half months, and with the aid of special machinery for cutting and threshing out the crop, it requires less labor than almost any crop that can be grown.

For many years Col. Thompson was the largest grower of tobacco in the county, but becoming dissatisfied with the unsatisfactory prices that prevailed for several years, coupled with the continued and incessant labor that it required to handle the crop, he concluded to put his efforts to more diversified crops, and believes that he has solved the problem in the cultivation of navy beans. He certainly has proved that it pays handsomely and that the land remains in much better shape. Winchester Democrat.

Doctors Could Not Help Her. "I had kidney trouble for years," writes Mrs. Raymond Connor, of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." Sold by Louisville Drug Co.

### SUFFERED 25 YEARS

With Catarrh of the Stomach—Peru-na Cured.

In a recent letter to Dr. Hartman, Congressman Botkin says: "My Dear Doctor—It gives me pleasure to certify to the excellent curative qualities of your medicines—Peruna and Manalin. I have been afflicted more or less for a quarter of a century with catarrh of the stomach and constipation. A residence in Washington has increased these troubles. A few bottles of your medicine have given me almost complete relief, and I am sure that a continuation of them will effect a permanent cure."—J. D. Botkin.

Mr. L. F. Verdery, a prominent real estate agent, of Augusta, Ga., writes: "I have been a great sufferer from catarrh of the stomach. I tried many physicians, visited a good many springs, but I believe Peruna has done more for me than all of the above put together. I feel like a new person."—L. F. Verdery.

The most common form of summer catarrh is catarrh of the stomach. This is generally known as dyspepsia. Peruna cures these cases like magic.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. R. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

### The Genuine Vs. Counterfeits.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Ledbetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured me." For blind, bleeding, itching and protruding piles no remedy is equal to DeWitt's Witch Hazel Salve. Sold by Louisville Drug Co. Dr. J. D. Biggs Mgr.

Gov. Beckham will speak at  
Grayson Saturday, Sept. 26th.

Judge S. G. Kinner has the reputation of being one of the ablest and most impartial jurists in the State.

Hon. Rolla K. Hart, of Fleming county, was nominated by the Democrats for Railroad Commissioner of this district. Lawrence county instructed first for Judge M. H. Houston, of Boyd, and second for Mr. Hart.

The Democrats of the upper Big Sandy Valley have nominated a ticket for Circuit Judge and Commonwealth's Attorney of which they have cause to be proud. Hon. John P. Wells, of Paintsville, is a good man in all respects and will serve the people of that good district ably, faithfully and impartially. He is not a chronic office-seeker. In fact, he has never been inclined to ask for office. He might have had numerous nominations in the past if he had asked for them. The people wanted him this time and he has gracefully responded to the call. Elect him and you will never have the cause to regret it.

Hon. John Auxier, the bright young County Attorney of Pike, is a son of Judge A. J. Auxier. He has a splendid future before him. As County Attorney he has acquitted himself well, showing the ability necessary to make a good prosecuting attorney for the district. He did not seek the nomination. It was agreed on all sides that he was the man for the place.

Curtis Jett to Hang.

The jury in the case of Curtis Jett, on trial at Cynthiana, for the murder of James Cockrell, returned a verdict of guilty and fixed the punishment at death. The jurors deliberated on the case for two hours and twenty-five minutes, and, it is said, twenty-four ballots were taken, one juror holding out to the final ballot against death sentence. Jett declared that the verdict was what he expected. He expressed the opinion that it would be reversed by the Court of Appeals. Only two speeches were made in the case, Mr. Blanton speaking for Jett and Commonwealth's Attorney Byrd arguing for the prosecution. This is the only case in Kentucky where a man has been under sentence of death and life imprisonment at the same time. It may interest those who insist upon knowing the politics of jurors to say that ten of these jurors were Democrats and two Republicans.

Ayer's

Impure blood always shows somewhere. If the skin, then boils, pimples, rashes. If the nerves, then neuralgia, nervousness, depression. If the stomach, then dyspepsia, biliousness, loss of appetite. Your doctor knows the remedy, used for 60 years.

Gov. Beckham's pardon record shows up admirably alongside those of Govs. Brown and Bradley. His enemies made a bad job of it when they sprung the pardon question, and the only thing they now is to garble the facts.

THE NEXT DAM

On the Ohio River Should be Built Below the Mouth of Big Sandy.

The enterprising cities around the mouth of the Big Sandy river should join hands and go to work immediately to secure the construction of a lock and dam in the Ohio river in that locality.

This suggestion from us is not prompted entirely by selfish motives. A little thought will show that it is a matter of mutual interest and of the greatest import to the present generation living not only in the Big Sandy valley, but all along the Ohio river. Especially is the "Second Pittsburg" district interested. We mean by this the territory within a radius of ten miles of the mouth of the Big Sandy. The project here referred to should awaken the most intense interest among those energetic, progressive people. It is predicted by far-seeing men that within fifty years the Ohio valley will have another Pittsburg, probably even greater than the present one. It will stretch from Huntington to Ironton, including Ashland, Catlettsburg, Kenova and Ceredo. In the basis of this prediction the vast resources of the Big Sandy valley play a most important part.

But why not beat the prediction out in the characteristic American way? It may be done with comparative ease. Plenty of "hustle" applied right now will take you a long jump toward the early realization of the desired end. And the cities named above have the proper men and can command the necessary influences to induce the government to build a dam near the mouth of Big Sandy right away, instead of a quarter of a century hence. All the conditions are favorable and the U. S. Engineer department recognizes that this is the logical point for the next dam. The proposition will meet with the approval and support of this influential branch of the government service, because it fits so practically into the progress of the great plan of slack-water now under construction on the Ohio and its tributaries. By the time this dam could be completed the Big Sandy system would be far enough up the valley to pour unlimited quantities of coal, coke, ore, clay, stone, glass-sand, timber, etc., into the furnaces, plants and factories of all those cities. Not only would the supply be endless, but the water transportation would make it the cheapest. This Pittsburg of the middle Ohio would have no reason to fear competition.

Big Sandy slackwater cannot accomplish its greatest work until a pool is provided immediately below the mouth, so that barges and timber and steamers may be taken out into the Ohio at all seasons of the year. A dam is therefore necessary. Consider what a great harbor this will furnish for the raw materials needed in various industries, and the great advantages to be derived from having constant use of the river during the summer and fall seasons. It means more than we now appreciate.

The number men of those cities would have much smoother sailing and steadier work if their mills could be fed with timber delivered there at all seasons, to say nothing of the fine harbor that a dam would provide. The same is true of the mills that use coal, etc.

At a gathering of business men in Cincinnati not long ago, an eminent engineer stated in the course of an address on the Ohio river improvement that the dam near the mouth of Big Sandy ought to be the next one constructed. He was undoubtedly speaking impartially, and could have had no reason for doing otherwise.

If we simply wait until the dam comes to us, old age and death will probably overtake the present generation before the much needed improvement reaches us, because other points along the river are pushing their claims all the time and will get in their work ahead of us. We are now in position to make a better showing of "reasons why" than any other point on the Ohio river.

There is not a group of small cities anywhere that can accomplish more than those near the mouth of Big Sandy when aroused. We suggest that this is one of the best opportunities they ever had to accomplish a great piece of work.

Curtis Jett and his lawyer declare that they have no hope of securing a fair trial at Cynthiana. It is said the attorneys for the prosecution have secured sufficient evidence to convict other men implicated in the assassination of James Cockrell, and that they will be brought to justice regardless of the confession or non-confession of Jett.

Kentucky courts are beginning to do their duty, but the public will continue skeptical until Caleb Powers and Curtis Jett have actually paid the just penalty on the gallows.

OUR NEIGHBORS.

Big Sandy Lock No. 1, at Catlettsburg, has been completed. The dam will not be finished this year.

The Boyd County Fair Association has three days of racing this week—Thursday, Friday and Saturday.

Albert Vaughan, of Greenup county, and Miss Tennessee Stepp were married at Williamson, W. Va., last week.

Oscar W. Newingham, an Eastern man, has purchased one thousand acres of timber and coal lands on Pond creek, Pike county, almost opposite the town of Williamson, for \$50,000, this being at the rate of \$50 per acre, the highest price ever paid for forest lands in Eastern Kentucky.

Mrs. Mordcael Williams, of Normal, says her husband will soon be able to tackle another burglar, if necessary. He is able to sit up and take nourishment. A man has been arrested near Ironton on a shanty-boat who fills the description of the burglar who shot him.

Mayking, Ky., Sept. 20.—Mistaking arsenic for quinine, Mayo Adams took a large dose late yesterday. He was thrown into convulsions. Dr. Fitzpatrick was called, but to no purpose, and Adams died last night in great agony. He was a leading Republican of Eastern Kentucky, and a brother of S. E. Adams, postmaster and merchant here.

A report says that two young men named Wolford and Vance are in jail at Pikeville charged with the murder of Bob Christian over on the Tug river side of the county. Christian was a brother-in-law of Wolford, but had become so against the will of the family. His wife is a daughter of E. R. Wolford. J. B. Vance was the favored rival. The fathers of young Vance and Wolford are said to have run away. Vance is thought to have done the killing.

The following improbable story appeared in the Cincinnati Enquirer:

Lexington, Ky., September 21.—A dispatch from Paintsville tonight says Colonel Holtz and his band of Salvation Army evangelists were mistaken for revenue men and came near being killed today. They had been traveling some distance, and finding no schoolhouses inquired for a crowd and were told by a boy that some men were under the bluff in the valley below. They left the main road and went in search of an audience.

The men were operating a moonshine still, and when the Salvationists approached on horseback and wearing the khaki uniform they were mistaken for revenue officers and two shots were fired at them. The guide realized the trouble, and riding ahead made the moonshiners understand that they were not revenue men, and services were held in the little cabin with the moonshine still.

Every Promise Will be Kept.

The Wallace Show Does Not Have an Offensive Feature in the Whole Show.

The Wallace Circus, which comes to Louisa on Saturday, Oct. 10th, is a show of the highest class, and clean in every respect. It represents all that there is of legitimate worth in the circus business. It is in charge of men who aspire to elevate the tone of the calling, and we believe the thousands who have attended the performances in the past will agree that it has reached the highest standard of professional and artistic ability. The menagerie, large and varied, and the trained animals the best, and there is in connection with the Wallace Show not a one of those discreditable and demoralizing features which have done so much to give the circus a bad name, and to discourage the true friends of that otherwise wholesome amusement. The managers of the Wallace Show keep all their promises, advertising nothing they do not expect to give, and carefully divest their performances of anything and everything calculated to offend the most fastidious. We are sure that our citizens will give the Great Wallace Show a hearty welcome when it exhibits in Louisa on Saturday, Oct. 10th.

J. H. NORTHRUP, PRES., JOHN G. BURNS, SEC.

Emmett and E. R. Keith, sons of Wm. Keith, a South Methodist preacher who lived in Floyd county many years ago and was well known throughout the Big Sandy valley, were in Louisa Wednesday, as guests of Judge R. T. Burns and wife. They were returning to their homes in northern Kansas, after a visit to relatives in the upper valley. It is their first visit to Big Sandy since they went to Kansas twenty-five years ago, and for fifteen years they had not received a letter from this section. Many changes have taken place, but they found numerous old friends still alive, and enjoyed the visit very much. Emmett's address is Bellville, and E. R. lives at Formoso.

# NO SALOONS.

Louisa Citizens Vote "No" in Large Numbers.

The joyous peals of all the church bells in town told the result Tuesday evening of the election held that day to determine whether or not Louisa should be afflicted by saloons during the next three years. The count of ballots showed 61 for license and 149 against.

The election was called at the instance of the liquor people and they made a hard fight. The "sineas of war" were supplied by wholesale liquor dealers elsewhere. But, notwithstanding the advantages of which they availed themselves, the defeat was complete.

The W. C. T. U. made a valiant fight, aided by able speakers. Rev. F. F. Shannon opened the battle at the court house on the night of the 10th in an able address to a large audience. Rev. R. B. Neal was the next, his date being last Friday night. His speech was very effective. Dr. G. W. Young, the noted lecturer and temperance worker spoke Saturday night, Sunday morning, afternoon and night, and Monday night against saloons, blind tigers, "Red Onions" and "Wild Hog." Large crowds were out to hear his unanswerable arguments and pointed remarks, delivered in an entertaining and inimitable way.

A large majority of the people of this community are positive that they do not want the liquor traffic here. They have the power to stop the illegal sale of the stuff and should proceed without delay to do it. No handful of outlaws can stand out against an outraged community of good citizens if the latter will only assert their rights. Neither can officers continue to disregard their sworn duties in the face of such a power.

Three boys about twelve and fourteen years of age were staggering drunk on our streets on election day, swearing and misbehaving just like the older debauchees we see often. They visited the public school in this condition and had to be forcibly removed. The attention of the officers is particularly directed to this case. The penalty for handling liquor on election day is very heavy. No arrests have yet been made.

## FATAL ACCIDENT.

Theron Wilson Killed by a Rock Falling on Him.

Theron Wilson, oldest son of the late A. J. Wilson, ex-Sheriff of Lawrence county, met death in an unusual and tragic manner last Friday afternoon near his home four miles south of Louisa.

He was at work on the side of a hill making cross-ties. In attempting to dislodge one and send it down the hill, a large rock above him was started from where it had been insecurely lodged. Theron was knocked over a cliff and a piece of rock weighing about 300 pounds pinned him to the earth. Only a small boy was with him. Seeing that he could not remove the rock the boy called for help. Three men heard him and responded as quickly as possible.

With some difficulty the rock was removed and the unfortunate man was carried to his home, where he expired about five minutes afterward. He never spoke after the accident and it is doubtful whether he was conscious. One foot was mashed off, and a thigh, hip and the lower abdomen badly crushed.

Deceased was 33 years old. He leaves one child and a widow, for whom much sympathy is felt.

# Condemnation of Lock Site.

The commissioners appointed to appraise the property needed by the government at the site of Lock No. 1 on the river will visit the place today and make the report at once. The commissioners are G. W. Gunnell, M. S. Burns and M. F. Conley. Alexander Lackey and B. F. Thomas will be present also.

Congressman Kehoe is keeping after the court officials to push the matter through the courts with all possible haste. The papers in the case of site No. 1 on the river are not yet ready.

Mr. F. M. Lytle, of the U. S. Geological Survey, was in Louisa last week marking the lines of north, east, south and west as a guide in official matters. A square marble stone was set in the court house lot as a permanent indicator. Mr. John L. Hibbard, our county surveyor, brought his compass down Tuesday morning, and had Mr. Lytle to test it. After a critical examination and many trials, Mr. Lytle pronounced the compass almost or quite absolutely correct.

## BIG S Ark Weakens Your Kidneys.

Eaten at lunch Make Impure Blood.

Public health is your body passes through the kidneys every three minutes. The kidneys are your blood purifiers. They filter out the waste of impurities in the blood. If they are sick or out of order, they fail to do their work. Fats, acids and rheumatism come from excess of uric acid in the blood due to neglected kidneys.

Kidney trouble causes or unsteady heart beats, and makes you feel as though they had heart trouble. Because the heart is overworking in a thick, kidney-poisoned blood.

It used to be thought that only urinary troubles were connected to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are not sure you can make no mistake by first doctoring your kidneys. The mild and sure effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon felt. It stands the highest for its worth. It is the most distressing cases and cures them. It is a one-dollar size, and a five-dollar size.

Write to Dr. Kilmer, Home of Swamp-Root, 455 North Zeeb Road, Binghamton, N. Y. You will find out how to find out if you have kidney or bladder trouble. Send this paper when writing Dr. Kilmer.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and address, Binghamton, N. Y., on every bottle.

He has the confidence of all the trainmen and will be greatly missed at his present home. Mr. Snow is well known throughout the state, not only as a railroad man, but as a man of fine business ability.—Independent.

Rev. George O. Barnes, aged 90, the Kentucky evangelist and convert of Dowleins, closed a series of meetings in the Presbyterian Church in Whitesburg last night. Barnes declared that the coming of the Messiah was near at hand. Old men and women who had known the divine in their youth wept. "Would that I could see Eastern Kentucky's fabled-ridden district immortalized and reformed before I go away. I will never die but will meet God in the natural flesh within a few months." Barnes refused the profession in the Zion Church of Theology in Zion City near Chicago to devote the remainder of his days in Kentucky's fabled district. He preaches seated, as he is very infirm and tottering, but despite his extreme age his hair is black.—Ex.

West Virginia is causing a revival in activity all along the route of the line, and the expectation of an advance in prices is causing the older operators to use every effort in increasing their production. As yet the line is not connected up with all divisions, and it will take a few weeks to do this, but oil is now being run through that part extending from the lower fields to Licking River, and a test well soon be made of the main line extending from that point on to West Virginia.

In the central fields the principal results were obtained from Bath and Rowan Counties, three wells being drilled in Bath and two in Rowan. The average capacity is five barrels. In Knott County the New Domain (Standard) drilled in a well with a showing of 75 barrels daily. An important deal was consummated in Estill County, the Standard buying out the entire holdings of all other concerns, paying a total of \$100,000. There are 30 producing wells, with a total daily output of 100 barrels.

Jackson, Ky., Sept. 16.—The mountain brigade of the Salvation Army entered upon its work here in earnest today, holding four meetings. At 2 o'clock this afternoon the first services were held on Main street in front of Capt. Longmire's headquarters. The soldiers constituted the principal part of the audience when the services began, but before the close the sidewalks and street were filled with spectators. Immediately upon the close of this meeting another service was held in the Methodist church. In the evening another street meeting was held, after which a second service was conducted in the courthouse. The feature of these services consists in the music and eloquent appeals of the Salvationists. The brigade is composed of a fine looking body of men. The musical instruments used are two cornets, a trombone, concertina and guitar. Col. Holz's assistants are Maj. W. O. Hunter and Capt. Clarence Boyd, of Cleveland; Capt. William Escott and Cadets James Gallihar and T. Bassett, of Cincinnati, and Capt. Edwin White and Envoy John Zeall, of Pittsburg. The advance guard, Capt. Othoff, of Cincinnati, left this morning for Salyersville to arrange for the invasion of the army, which will leave here for that point on Friday. The brigade will proceed from here to Norton, Va., on horseback, taking the train at Norton for Bristol, Tenn. It will spend two days in each of the following places, which lie along the route of the line of march: Salyersville, Prestonsburg, Pikeville and Whitesburg. The purpose of this tour is to determine whether or not it is advisable to place permanently in the field two or three Salvationists in the mountain counties of Kentucky and Tennessee. Col. Holz is in command of the Southern division of the Salvation Army, consisting of the States of Ohio, West Virginia and all Southern States east of the Mississippi river except Virginia.

The writer had the privilege of attending the Teachers Institute at Flat Gap last week. It was a success. The location is ideal and everybody was pleased. The people like the teachers, and the teachers liked the people. But the time has come to repeal the law organizing county Institutes. It was a necessary makeshift to supply normal training. The exigency which called it into being no longer exists. This the Legislature confesses when it requires an examination on Theory and Practice of Teaching.

If the Legislature will substitute a progressive course of reading for the teachers it will do a wise thing and meet the approbation of progressive teachers. While on this subject, we will suggest that the Teachers Library as managed in the past, is a comparative failure. It is inaccessible to country teachers, who need it most. A well used library is invaluable, but as an ornament it is the poorest sort of investment.

## PAINE'S Celery Compound

### THE GREAT MEDICINE.

MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: "After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., LL. D., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous, life giving prescription, with the conviction and positive knowledge that it had peculiar virtues and ample powers to cure.

Thousands of the strongest testimonials from the best known and most reliable men and women of our country fully sustain the claims made by Dr. Phelps regarding his incomparable Paine's Celery Compound.

One of the most convincing proofs furnished, comes recently from a gentleman widely known in the capital city of the Dominion of Canada. We refer to Mr. Alfred Brown, 91 O'Connor St., Ottawa, Ont. Mr. Brown's letter fully demonstrates the fact that the greatest sufferer may cast off his or her burden of disease and become well, strong, and happy. It proves, too, that the great medicine maintains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses. Mr. Brown says:—

"I acknowledge with thankfulness and pleasure the fact that I have been cured of a very painful illness of eight years' standing by use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find that one of them, at least, would understand my case.

"I was getting worse, and was told I was incurable. I was indeed in a critical condition. I could not go from the house alone, as I was liable to sudden collapse. I tried hospital treatment, but no relief or good results came to me. I could not sleep anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed together in my left side to ease my pains; my feet and hands were cold continually; had inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time.

"After the regular use of Paine's Celery Compound for a time, I am now in the best of health, have good appetite, and can use any kind of food. Thank God I am my old self once more, all through the use of Paine's Celery Compound."

## PRODUCTS OF A STATE

### Are Foundations of Wealth, But Industries Are the SINEWS OF FINANCIAL STRENGTH.

Secretary Peyton N. Clarke Gives an Interesting Interview on the Benefits That Will Come From the Adoption of the Constitutional Amendment in November.

Himself always in the front rank when contests are waged for state development, Mr. Peyton N. Clarke of Louisville was naturally turned to by the Constitutional Amendment Committee for its Secretary. He has unselfishly devoted much of his time to all propositions of this kind and is easily one of the best posted citizens of the State on the Constitutional Amendment. The following review of the benefits to accrue was furnished by him for our readers:

"You will understand, of course, that the proposed Amendment will not interfere in any manner with the present method of assessing real estate and personal property for State and county purposes. All towns and cities will continue as heretofore to pay taxes for State and county purposes under the present law, and the proposed Amendment, if adopted, will make it possible for any town or city in the State to secure an act of the Legislature, providing that in raising revenues for strictly local purposes, towns and cities of any class may substitute for the present ad valorem system, such licenses, franchises, and excise laws, in subjecting personal property to its fair share of the expenses of such towns and cities as may take advantage of the Amendment.

"It would seem to be a perfectly fair proposition to allow the towns and cities in the State to raise their revenue for strictly local purposes in any manner they see fit, and no fair-minded person could reasonably object to allowing them this privilege, but the main object and purpose of the Amendment is of far greater moment and interest to every citizen in the State, whether he is a resident of a town or city or resides in the country districts.

"The products of a State are its foundation of wealth, but its industries are the sinews of its financial strength. Without industries, which afford markets, in proximity to the products, the producers are badly handicapped, and if compelled to send their products to distant markets, where there is greater competition and increased expenses, as well as numerous losses, it is perfectly plain that the producer must suffer.

"Now, in order to secure more industries, which means more employment and more mouths to feed, we must encourage the establishment of new enterprises, and at the same time, by increasing the capacity of those already established, secure an ample home market for our home products.

"Other States have seen the wisdom of this policy and Kentuckians should not be allowed to lag behind them. Our geographical position and enormous undeveloped wealth should enable us to occupy a place in the front ranks of industrial development and the future welfare and prosperity of the State can be settled in a great measure by the adoption of the Constitutional amendment. Manufacturers and other industries cannot be induced to locate in Kentucky while our taxes on such industries are greater than in other States with which we have to compete. Therefore, in order to secure the benefits, our position and advantage entitle us to, we must be able to offer the same inducements as are offered by our neighbors.

"While the proposed Amendment will not change in any manner the present method of assessing real estate for State and county taxes, it must not be concluded that it will not greatly benefit the entire State.

"It is confidently believed that the new law will enable the assessors to disclose a vast amount of property not at present in reach of the assessors, and if this result should follow, there would be an opportunity for an immediate and radical reduction in the tax rate for State and county purposes by which every taxpayer in the State would be directly benefited. The main advantage would be in the inducement to new industries to locate in our midst, new capital to seek investment in our farms, mines and rich timber lands, and by this increasing our wealth and importance the result would invariably follow of a reduction in the tax rate. It is a very simple proposition that the more property to be taxed, the lower the rate necessary to secure the same revenue.

"A recent change in the Kentucky incorporation law has kept vast sums of money in our State which before the change referred to, went to other States, and the numerous enterprises now being incorporated in Kentucky will continue to add to its revenues for all time to come, and if anyone has been damaged in any way by the change there has been no discovery of the fact.

"If Kentucky could gain so much by a simple change in the statutes, why should she not gain a great deal more by a change in the revenue law as proposed in the Amendment to be voted on in November?

"This is a grave proposition and deserves the most intelligent thought and action of our citizens."
